

IS THE CONTENT YOUR COUNCIL PRODUCES DEAF ACCESSIBLE?

Who is Involve Interpreter?

Involve Interpreter provides specialist support for Deaf British Sign Language (BSL) users with a range of video communication services. Using our bespoke video recording and editing studios, we add professional quality BSL translation to your written, digital and audio content (including websites, leaflets, fact sheets and information videos) to ensure it is fully accessible to Deaf people. All BSL translations are created by our in-house team of experienced, qualified and diverse interpreters.

Involve Interpreter BSL video recording and editing service

Recording

In our professional, specially designed studios

Editing

Green screen, simple graphics, and video-in-video services

Captioning

Transcription from audio and subtitles added to videos

Why add BSL to your videos?

With approximately 151,000 BSL users in the UK, it is important to make your content accessible to everyone including your staff, borough residents and suppliers.

Involve Interpreter enables your organisation to meet statutory requirements for providing access to information for Deaf users. Our translations are suitable for internal and external web use and can be made bespoke to your council's branding. Working from our dedicated recording studio, our team offers a flexible approach to ensure that written, audio or digital content is inclusive and made accessible for Deaf people, whatever their communication preference.

Colleagues. On Monday you may have seen the
Minister announcing

OUR SERVICE IS RATED
5/5 BY OUR CUSTOMERS
